

ADVANCED CATARACT SURGERY OPTIONS

The treatment of cataracts has drastically improved in recent years with advancements in technology. Hughes Eye Group offers up to date, customized options to allow you to achieve your vision goals. If you desire the best visual outcome with a drastic reduction in glasses, review the advanced options listed below. Your medical insurance does not cover these advanced cataract surgery options.

All advanced cataract surgery packages include LessDrops and a protective shield. Your doctor will help determine which option is right for you.
